

GODFREY DESTINY CHUKWUEBUKA

SOFTWARE DEVELOPER

Phone No: 07085395399 | **Email:** destinygodfrey18@gmail.com |

Address: Mandela Estate, Sars Road, Port Harcourt | **Github:** github.com/destinygodfrey18

PROFESSIONAL SUMMARY

Versatile and detail-oriented Information Technology professional with strong hands-on experience across web development, system management, and general IT support. Skilled in using modern technologies such as JavaScript, Node.js, ASP.NET, SQL Server, and PostgreSQL to build and maintain efficient digital solutions. Experienced in troubleshooting, database management, and collaborating on ICT projects that enhance organizational productivity. Passionate about technology innovation, cybersecurity, and leveraging IT tools to solve real-world challenges and drive continuous improvement.

OBJECTIVE

To contribute to the development of modern, secure, and efficient full-stack web applications using both frontend and backend technologies, while continuously improving my skills in software development and cybersecurity.

EDUCATION

- | | |
|--|---|
| • Rivers State University
Bachelor of Science (B.Sc.) in
Computer Science – In View | • Global Link Academy
WASSCE (2019) |
|--|---|

EXPERIENCE

✓ OANDO PLC

June 2025 - December 2025

ICT Department Intern – Application Development Team

Company Project

- Collaborated with the ICT team to develop a functional fintech web application.
- Connected ASP.NET web interfaces with SQL Server for database management.
- Worked on Node.js backend setup using Express and PostgreSQL for API development.
- Assisted in UI optimization to improve user experience and site responsiveness.
- Contributed to version control using Git and GitHub for team collaboration.

✓ FREELANCE FULL-STACK DEVELOPER

Port Harcourt, Nigeria | January 2024 – Present

- Designed and developed responsive websites for clients using HTML, CSS, JavaScript, and Node.js.
- Built backend systems with Express.js and PostgreSQL to handle authentication, data storage, and API integrations.
- Collaborated with small businesses and startups to automate processes, improve UI/UX, and optimize website performance.

PROJECTS

✓ **Fintech Application**

- Developed and integrated frontend and backend components for a fintech platform that allows secure account management and transaction simulations.
- Used HTML, CSS, JavaScript, Node.js, and PostgreSQL to build interactive dashboards.
- Designed authentication flow and implemented token-based login.

✓ **Portfolio Website (Personal Project)**

- Designed a responsive portfolio website to showcase development work.
- Integrated navigation for Home, About, Projects, and Contact pages.
- Deployed the site using Netlify and GitHub Pages.

KEY SKILLS

- Frontend Development: HTML, CSS, JavaScript
- Backend Development: Node.js, Express.js, PostgreSQL, ASP.NET
- Database Management: SQL Server, PostgreSQL
- Tools & Platforms: Git, GitHub, Postman, Visual Studio Code, Cursor IDE
- Cybersecurity: Basic Penetration Testing

CERTIFICATION

- Certificate in Cyber Security – Cisco Networking Academy

AWARDS

- Employee of the Month
- Best Performer Award.

COMMUNICATION

- Strong written and verbal communication skills developed through documentation and team coordination.
- Presented project updates effectively during ICT meetings and review sessions.

LEADERSHIP

- Led a small development group in integrating backend APIs with frontend modules.
- Actively mentored peers on debugging and version control best practices.
